

SMS CASING WALL

32-55"

10&22"

SMS Casing Wall – SMS Casing Wall is a combined wall mount and casing for digital signage and informational purposes in public spaces. Choose your display size and any colour, to match your brand.

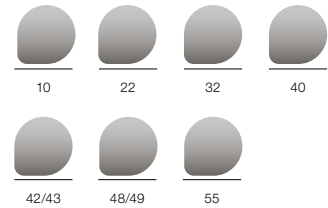

- Covers the bezel, side and backside of the display. An acrylic window in front of the display prevents the public from tampering with the display and allows for easy cleaning.*
- The 32"-55" models have easy access to the display with a front that hooks on to the top and is secured with a drill proof lock on the bottom. 10" and 22" have a front that is slid on from the front and secured with 4 safety screws.
- The 10" and 22" version can be used in both portrait and landscape orientation.
- Excellent choice for a lobby, stairway, next to the elevators or anywhere where the public should be met with information or engaging messages. A perfect way to show a list of tenants in a corporate or residential building.
- A slim design with chamfered edges.
- Wall installation for one display. Display mount is integrated in the casing.
- Cable outlets with cover plates that minimizes the possibility for someone to access the casing.

* If you are looking for a true vandal proof cabinet we recommend the Casing Protect series instead.

The product is manufactured to order, with a delivery time of 4-6 weeks (for standard choices). The price and delivery time may increase for orders that include optional extras.

CHOOSE A SIZE

Choose what display size you need a Casing Wall for.

CHOOSE A COLOUR

STANDARD PAINTS

SPECIAL PAINTS Choose from 20 RAL colours.

Choose a standard paint, or a special paint as an optional extra. You can also choose between more than 700 foil-finishes within our Tailored offer (see below).

Advanced

Our Advanced category is for those who want to highlight their display or projector a little more, and be seen in demanding environments. Personalize the product to your situation with pre selected options, colours and accessories.

Tailored

Our range of tailored products makes it possible to design a unique product with the aid of the SMS Design Team. We design according to your demands in size, environment or any special requests you may have. Tailored products are manufactured to order.
