

FEATURES

Repair can be tough. This mat makes it easier.

- Simply organizes all your parts while you work on a device.
- Dry erase surface lets you keep notes and stops mistakes.
- Reduces reassembly time by up to 40% while preventing errors.

Designed by fixers, for fixers, the 8"x10" Magnetic Project Mat solves this repair problem. Spacious and secure, the mat will catch and hold screws as you pull them out of a device.

Great for cell phone repairs, and you can stop worrying about screw tracking and focus on the cell phone all the screws will be right where you left them. For laptops with hundreds of screws, use the whole mat as a screw guide and keep careful notes to not get lost.

The included pen is uniquely suited for the Project Mat. It's made by Staedtler, the German pen company that makes top-of-the-line pens and pencils for artists and architects. Their Lumocolor Correctable pen doesn't smear or wipe away like most dry erase markers, so if you brush your hand across the mat while performing a repair, the ink doesn't scratch or smear. However, the eraser tip or a dry cloth wipes the ink away clean.

Pen wearing out? We have replacement pens.
