

LiftFix & Flex CPU Holder

by
Kondator

LiftFlex (part no 427-CS27) for high flexibility.

Unique "click-in" function for easy placement/removal of the computer. Sliding runner with practical handle, rotates 360 degrees.

LiftFlex, a clever design for both horizontal and vertical positioning.

Every single computer...

...should be setup like this!

Hanging the computer under the desk frees up workspace while bring it easier to reach. This also reduces annoying computer humm and keeps the floor surface free and clear.

Accessory to LiftFlex, desk spacer 65 or 100 mm.

LiftFix is available in black (427-CS18)... ... and silver (427-CS17).

Both LiftFix and LiftFlex has a patented strap catch guarantees extremely secure locking.
