HEADACHE TREATMENTS THAT WORK

ADVANCEDHEADACHECENTER.COM

State-Of-The-Art Integrative Headache Treatments In NYC & NJ

At the Advanced Headache Center, our treatment plans are uniquely designed to treat the individual suffering from headaches.

We understand headache triggers and work with each patient to formulate a plan that will be unique to their condition.

Our headache doctors provide a comprehensive diagnostic work-up and review of health history prior to setting a treatment plan.

Many patients have seen a doctor in the past for their headache but have simply not found lasting relief.

Fortunately, our headache doctors are skilled in a multimodal approach to accurately diagnosing and treating your pain.

**WE UNDERSTAND
YOUR HEADACHES**

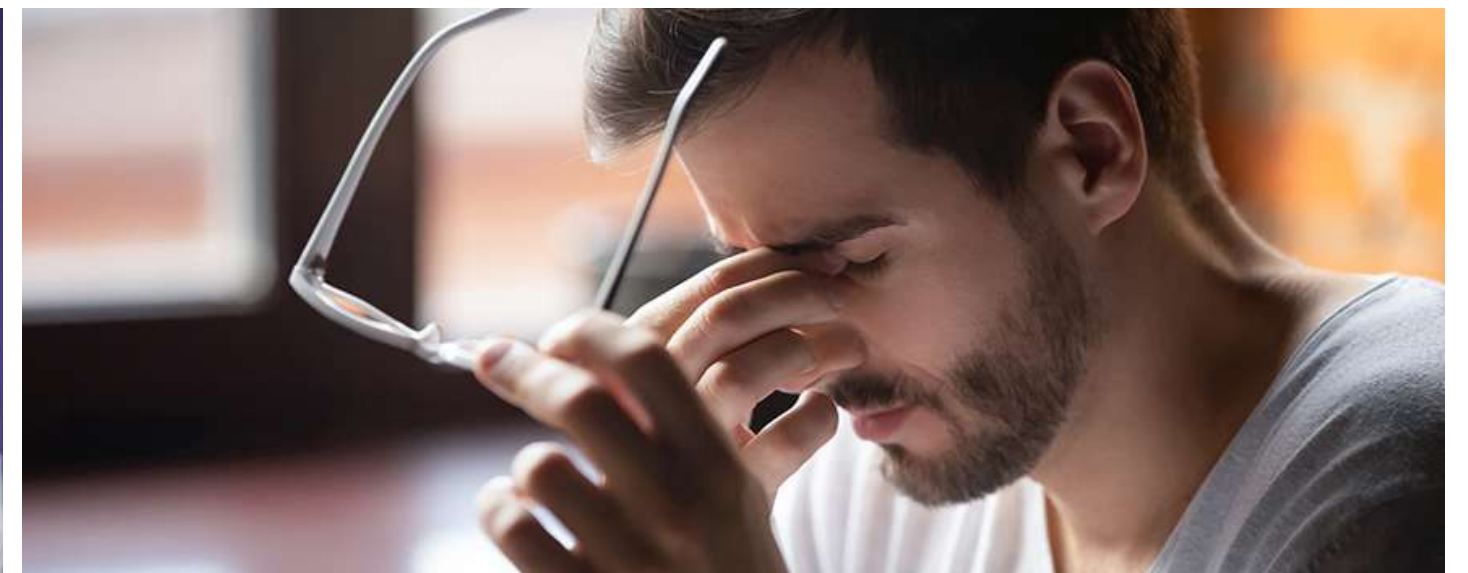

Our specialties include:

Primary Headaches

Primary headaches are severe forms of headaches that can affect the quality of a patient's life if left untreated, or treated improperly.

Primary headaches are typically not dangerous but can severely impact a person's ability to live a normal daily life depending on the severity of their condition.

Secondary Headaches

A secondary headache is a headache caused by an underlying medical condition affecting the head, neck or shoulders. Secondary headaches can be attributed to anything from a toothache to glaucoma.

In order to appropriately diagnose a secondary headache, a patient will begin with a complete diagnostic work-up to rule out a primary headache cause.

Diagnostics

At the Advanced Headache Center, our team of headache specialists works together to provide you with a comprehensive diagnostic work up which may include review of complete medical history, family history, laboratory testing done on site, allergy testing and radiology services.

No one headache is the same and therefore should not be treated generically.

Treatments

Our team at the Advanced Headache Center focuses on providing patients with alternative integrative treatments to achieve headache and migraine pain relief. According to the World Health Organization, headache disorders are among the most common disorders of the nervous system.

Pain relief for all headaches

Our Doctors Are Experts In The Treatment Of Headaches & Migraines Including:

- Migraine Headaches with and without aura
- Tension Headaches
- Cluster Headaches
- Chronic Daily Headaches
- Trigeminal Neuralgia
