Multifunctional Crop Thresher Machine

Multi crop thresher machine is used for threshing of corn, pearl millet, sorghum, soybean, rice, wheat and adzuki bean. Zeno brand multifunctional millet thresher machine was invented to help smallholder farmers increase their yields of pearl millet grain while minimizing their drudgery. The diesel engine millet thresher can be owned collectively by cooperatives, individual households, or by businesses, who can process their grain at their convenience and use it for local consumption, or sell it at local markets. This grain thresher machine is designed according to various grain agronomic requirements, draw on the performance of other threshers, adopt single-phase electric operation, reasonable and simple structure, stable and reliable performance the adjustment is convenient to use, which not only saves labor but also reduces labor intensity. With less loss rate and high threshing, cleaning rate.

Petrol grain thresher machine

Diesel grain thresher machine

Technical Parameter

Model	ZNDT1000	ZNDT4000
Application	Corn, soybean, sorghum, rice, wheat	
Capacity (kg/h)	1000~2000	4000~5000
Power (kw/hp)	3kw/4hp	11kw/15hp
Power Type	Electric motor / gasoline engine / diesel engine	Electric motor / diesel engine
Size	1.15*0.45*0.85m	1.45*0.7*1.3m
Weight	110 kgs	380kgs
