<tr><td>Terrain:</td><td>Middle: Mixture of karst fields, typical to Veszprém area, and pine forests. Mainly flat with small hills. In the vicinity of settlements dense network of tracks, in the forest a perpendicular network of rides. Tracks are usually drying fast, but challenging to ride during or just after the rain. The karst fields are mainly rideable, too.

Long: The characteristics of the mid-range terrain are complemented by the protruding Csatári hills of the Bakony, with steep but manageable longer climbs and deep gorge valleys in places.

The area also contains several open-pit mines under cultivation, as well as an active NATO training area (here you can only shoot on the horse track) and an active hunting area, with new highlands constantly emerging.

Deviating from the roads is only allowed in areas permitted by the IOF code, everywhere else is prohibited!</td></tr>

Other	The race is open, anyone can attend (no club membership or racer's licence is required). However, in the National Championships only bikers with MTFSz licence can be awarded. Wearing a helmet is a must! Competitors can enter the competition on their own responsibility. The organisers do not take responsibility for any damages, injuries or accidents! Bikers accept the condition that photos, videos taken of them during the race can appear on the internet and other media. The route of the race includes public roads where the highway code applies! (Be careful with the crossings, no roadblocks to be expected!!). The exact location or the distance of the event is not fixed yet, the organisers reserve the right to change.
Accommodation	We are trying to organize a motorhome accommodation at the competition center. More information about this will be available later!
